Pawl 2.4 App Store Screenshots

8 slots. Same captions on iPhone (6.9 inch, 1320 × 2868) and iPad (13 inch, 2064 × 2752). Slots 1 to 3 show in search results, so they carry the main idea.

#	Headline	Subtitle	Screen to capture
1	**The App Blocker With a Key**	Give the key away. No key, no unlock.	Unlock tab, locked, painting and blocked app icons showing
2	**Block Any App or Website**	Social media, games, shopping, betting, adult sites	Setup: "What should Pawl block?" with picks made
3	**Blocked Apps Stay Closed**	And your own words remind you why	The block screen over a blocked app, with the goal line
4	**Tap the Key, Then Wait**	15 minutes by default, or pick your own	Unlock tab during the wait, countdown running
5	**See the Time You Got Back**	Hours back, plus Apple's Screen Time numbers	Home: "About 7 hr back" and the week facts
6	**Or Let Someone Say Yes**	Your ally approves from their phone (Pro)	The ally's phone: "wants to unlock Pawl" with Approve
7	**Schedules for Work and Sleep**	Block sets that turn on by themselves (Pro)	Scheduled sets list with two sets
8	**No Account to Make**	Pawl collects no data about you	Setup screen 1, the welcome painting and 3-row card

Before slot 8: check that the App Store privacy label still says "Data Not Collected" for 2.4. If it changed, use the subtitle "No sign-up. No Pawl server." instead.

Before you start (every shot)

- ☐ Build is the 2.4 build that goes to App Review. No Dev buttons on screen (they show only in debug builds).
- ☐ Battery charged, Wi-Fi on, no notification banners, Do Not Disturb on.
- ☐ Light mode. Text size at default.
- ☐ iPad shots taken on a real iPad or the iPad simulator. Never an iPhone shot inside an iPad frame.
- ☐ Block apps people know by their icons: TikTok, Instagram, YouTube.
- ☐ Ally name: use a plain first name like Sam.

Shot by shot

1. The App Blocker With a Key

Unlock tab, apps blocked, key paired.

1. Pair a key. Block 3 or 4 apps (TikTok, Instagram, YouTube).
2. Open the Unlock tab. Make sure the "Blocked right now" icon row shows.
3. Leave the timing at 15 min wait, 30 min open so the two big numbers read cleanly.
4. Capture with the painting, the status card and "Tap to unlock" all on screen.

2. Block Any App or Website

Setup screen 3, "What should Pawl block?"

1. Needs a fresh setup (the iPad, a spare phone, or a reinstall on a test device).
2. Tap tiktok.com and instagram.com chips. Add 1 app with "Add apps".
3. Turn on Gambling sites so the "Also block" chips show.
4. Capture with the "Blocking:" line visible at the bottom. Scroll so the toggles and the line both fit if you can.

3. Blocked Apps Stay Closed

The green "Locked by Pawl" block screen.

1. Settings: set the goal line to "my evenings".
2. Open a blocked app 3 or 4 times this week and tap Close this app, so it adds "You've walked away 4 times this week."
3. Open TikTok or Instagram. Capture the block screen with the title, the goal line and the button.

4. Tap the Key, Then Wait

Unlock tab, "Opening when the wait ends".

1. Tap to unlock, touch the key.
2. Capture in the first minute so the countdown reads about 14:50.
3. Make sure the icon row and "Cancel: keep apps locked" are on screen.
4. Tap Cancel after, so nothing unlocks.

5. See the Time You Got Back

Home tab.

1. Needs about a week of real use on that device, and an hours-a-day answer from setup (so the hero says "About X hr back").
2. Capture the hero and the week facts tiles. On iPad, try to fit the Screen Time card too.
3. If the device is fresh, the numbers will be zero. Use a phone that has a week of use.

6. Or Let Someone Say Yes

The ally's phone. Needs 2 devices and 2 Apple Accounts.

1. Owner phone (has Pro): invite the ally, ally joins, wait for them to become active.
2. Owner taps "Ask Sam" on the Unlock tab.
3. On the ally's phone, capture the request screen with Approve and Not now.
4. Tap Not now after.

Backup if 2 devices are not handy: capture the owner's "Asking Sam" screen instead.

7. Schedules for Work and Sleep

Settings, Scheduled sets (Pro).

1. Make a "Work" set, 9 AM to 5 PM.
2. Make a "Sleep" set, 11 PM to 7 AM.
3. Capture the list showing both sets and their hours.

8. No Account to Make

Setup screen 1, Welcome.

1. Fresh setup again (same device as slot 2, take it first).
2. Capture the painting, the title and the 3-row card ("The key is about $30", "Or an ally, with Pawl Pro", "No account, nothing collected").

Upload check

- ☐ iPhone: 8 PNGs at 1320 × 2868 (or 1290 × 2796). No see-through areas.
- ☐ iPad: 8 PNGs at 2064 × 2752 (or 2048 × 2732).
- ☐ No em dashes in any caption. No old sponsor, streak ring, or "tough moment" screens left in the set.
- ☐ Same order on iPhone and iPad.
